ADVERTISING WITH THE PUBLIC BROADCASTER

For over 60 years Ster has helped brands benefit from the strength of the public broadcaster's programmes on TV, radio and online. In 2026, Ster is, once again, the logical choice.

CONSISTENT, RELIABLE PROGRAMMING

The public broadcaster's programmes draw in a broad audience on a daily basis and inform, inspire and connect Dutch society. From the NOS Journaal and Pauw & De Wit to Radar, Even tot Hier, Wie is de Mol?, de Slimste Mens and the Top 2000. Programmes that are current, impactful and relevant.

MASS COVERAGE THAT WILL PROPELL YOUR BRAND FORWARD

Furthermore, viewers have a great year to look forward to, packed with 'orange' sports, such as the Olympic Winter Games and the men's Football World Championship. Live sports that engage millions of Dutch viewers and offer them a shared experience. Through Ster, you will reach millions of viewers and listeners at once, creating maximum impact for your brand.

REGIONAL PUBLIC BROADCASTERS

Ster also offers the strength of regional public broadcasters, both on radio and on television. The 14 regional broadcasters know what is happening in their region and bring that to their large and diverse audience daily.

By running your campaign around local news and events, such as Carnival, the Nijmegen 4Days Marches, cultural festivals and numerous other special moments, you will increase your exposure at the heart of where it is happening and establish a direct connection with the region.

SCORE WITH ORANGE

2026 promises to be yet another veritable Orange sports' year for the Netherlands. With a winter filled with highlights and a scintillating sports summer. Your brand can profit from that sense of national pride. With Ster, you will score your greatest potential.

BENEFITS IN 2026

At Ster you know what to expect. In 2026 we continue our policy of transparent rates and stable purchasing methods. The discounts and benefits remain unchanged to 2025. Here they are.

MULTIMEDIAL VOLUME DISCOUNT AND CONTRACTS

In a volume contract you lay down the minimum budget you will spend with Ster throughout the year. The discount you receive for that, is directly set off against the rates. The discount applies to your campaigns on radio, television and online. You can enter into a volume contract from €250,000 whereby the following discount tiers apply:

- ▶ €250,000 to €500,000 = 2% discount
- ▶ €500,000 to €1,000,000 = 3% discount
- ▶ €1,000,000 to €1,500,000 = 4% discount
- ▶ €1,500,000 and higher = 5% discount

Volume contracts can be entered into retroactively until 1 April 2026. The discount then applies from 1 January 2026. It is, of course, also possible to purchase campaigns without a volume contract. The discount is then offered from the moment that a tier has been reached and only applies to the volume within that tier.

EARLY PAYMENT AND SYSTEM DISCOUNT

The percentages for the early-payment discount and the system discount, as described in the General Terms and Conditions, have both been set at 0.5%.

GUARANTEED RATE, PRIORITY PLACEMENT

Campaigns on radio, television and online that are requested before the initial request deadline for the purchase period, are given priority on the reservation of advertising space. Furthermore, Ster applies a market index of 100 to campaigns requested before the request deadline. Should the market index come out lower than 100, you will benefit from the lower market index. For requests after the deadline the published market index, varying from 80 to 120, will be applied. The initial request deadlines are published at ster.nl/deadlines.

General Terms and Conditions

The General Terms and Conditions that apply to the 2026 Offer are published at ster.nl/voorwaarden.

PURCHASE OPTIONS RADIO

There are two possible forms of purchase: 'Fixed Costs per Spot' and Fixed Costs per GRP'.

FIXED COSTS PER SPOT

With Fixed Costs per Spot the rate is fixed, regardless of the listening figures achieved. An overview of the rates for the purchase of radio at Fixed Costs per Spot are published monthly at [ster.nl/inkoopopties](https://www.ster.nl/inkoopopties). The rates per second are indicated per station, per day and per block. The surcharge for a preference position is 5%.

FIXED COSTS PER GRP

With Fixed Costs per GRP you make your purchase based on the number of GRPs you wish to realise. This rate depends on various indices, according to the formula on the following page.
